1. SIGNIFICANT NEW INFORMATION

This document constitutes a Supplementary Prospectus required under Prospectus Rules 3.4.1 and 3.4.2 and is supplemental to, and should be read in conjunction with, the Original Prospectus and the Current Supplements. Words and phrases defined in the Original Prospectus shall have the same meaning in this Supplementary Prospectus unless otherwise defined herein.

This Supplementary Prospectus is being published as a result of changes to the Company's Current Portfolio resulting from the June 2015 reinsurance renewals, which constitute a significant new factor for the purposes of the Prospectus Rules. This Supplementary Prospectus contains details of that significant new factor and amends the summary contained in the Original Prospectus (as amended and/or supplemented in the Current Supplements) to take account of this new information.

1.1 SUMMARY

In accordance with PR 3.4.2, the summary contained in the Original Prospectus is supplemented as follows:

B.7	During the period covered by the selected key financial information for the Company from 6 December 2012 (being the date of commencement of operations) to 30 June 2014 and the subsequent period to the date of this Supplementary Prospectus, the significant change to the financial condition and operating results of the Company was as follows: the unaudited net assets have increased from US\$100 to US\$ 212,503,422 representing capital contributions and income from operations, partially offset by dividends paid.		
B.39	The following information relates to the Master Fund. It has been included here as the Company invests (and is expected to continue to invest) in excess of 40 per cent. of its gross assets in the Master Fund and is required to briefly explain the exposure, the identity of the Master Fund and to provide such information as would be required in a summary note by the Master Fund.		
	B.7	Selected historical key financial information	During the period covered by the selected key financial information for the Master Fund from 1 January 2013 to 30 June 2014 and the subsequent period to the date of this Supplementary Prospectus, the significant change to the financial condition and operating results of the Master Fund was as follows: the unaudited net assets have increased from US\$0 to US\$211,259,657 representing capital contributions and income from operations.

	B.45	Portfolio	The Master Fund's portfolio has been deployed across 112 positions providing diversification by geography, peril and occurrence. The Master Fund's portfolio currently consists of (i) non-voting redeemable preference shares in the capital of the Reinsurer issued in a number of different share series, with each series relating to one or more underlying insurance contracts and (ii) ILW derivatives and a Catastrophe Bond held directly by the Master Fund. A description of the Reinsurer's portfolio in respect of the Master Fund is set out in B.45 (Reinsurer) below.
	The following information relates to the Reinsurer. It has been included here as the Master Fund invests (and is expected to continue to invest) in excess of 40 per cent. of its gross assets in the Reinsurer and is required to briefly explain the exposure, the identity of the Reinsurer and to provide such information as would be required in a summary note by the Reinsurer.		
	B.7	Selected historical key financial information	During the period covered by the selected key financial information for the Reinsurer from 18 November 2011 to 30 June 2014 and the subsequent period to the date of this Supplementary Prospectus, the significant change to the financial condition and operating results of the Reinsurer was as follows: the unaudited net assets have increased from US\$100 to US\$248,041,014, representing capital contributions, as well as, reinsurance premiums earned, net of acquisition costs and losses incurred.
	B.45	Portfolio	As of the date of this Supplementary Prospectus, the Master Fund has invested substantially all of its assets in (i) preferred shares of the Reinsurer and (ii) ILW derivatives and a Catastrophe Bond held directly by the Master Fund, which combined, represent the deployment of US\$182.4 million of funds across 112 different positions and 47 different clients generating US\$32.6 million of net insurance premium written and fixed ILW payments.
C.3	Number of shares issued		The Company has 199,105,326 fully paid Ordinary Shares of US\$0.00001 each in issue as at the date of this Supplementary Prospectus.

1.2 THE CURRENT PORTFOLIO

The changes to the Current Portfolio resulting from the June 2015 reinsurance renewals constitute significant new information arising during the period that the Placing Programme is open. An overview and exposure summary of the Current Portfolio as at 1 June 2015, following the June 2015 reinsurance renewals, is set out below. This information supplements Part 2 of the Original Prospectus.

Overview

The Company's total exposure after the June 2015 renewals exceeds that of the previous year by US\$29.3 million, resulting in US\$186.2million in exposure through an investment in 167,098.9720 Master Fund Shares. This investment represents 88 per cent. of the Company's net assets as at 31 May 2015. The remaining net assets are held for working capital purposes and to fund dividend payments to Shareholders.

The Master Fund has invested substantially all of its assets in: (i) preferred shares of the Reinsurer and (ii) ILW derivatives and one Catastrophe Bond held directly by the Master Fund, which combined, represent the deployment of US\$182.4 million of funds across 112 different positions and 47 different clients generating US\$32.6 million of net insurance premium written and fixed ILW payments. A further breakdown of the exposure of the Current Portfolio is set out below.

In deploying such capital in the June 2015 reinsurance renewals, Blue Capital experienced a competitive underwriting environment with strong competition from traditional and alternative markets. Overall, the June 2015 trades were executed with an average risk adjusted rate decrease of 4 per cent. compared to June 2014.

Financial information in relation to the Company, the Master Fund and the Reinsurer and their respective assets is provided respectively in Parts 8, 10(A) and (B) of the Original Prospectus.

Exposure Summary

The following unaudited tables provide a breakdown of the Current Portfolio's exposure by contract type, zone and peril. Current Portfolio exposure represents the fair value of the positions held by the Company. In addition, the Company's undeployed capital balance after June 2015 renewals is US\$25.5 million or 12 per cent. of the Company's May 2015 NAV, approximately half of which will be held back by the Company and Master Fund for the payment of expenses and dividends.

The exposures summarised above represent the sum of all collateral invested less reinsurance recoverable. Per the Company's Investment Policy, the net first event exposure in any one zone will not exceed 35 percent. of the Master Fund's Net Asset Value. For contracts that overlap zones, the total exposure is counted in each of the exposed zones.

The valuations used in determining the dollar exposures and the percentage exposures in the above tables are the valuations of the contracts and the Master Fund's Net Asset Value (as the case may be) as at 31 May 2015 prepared in accordance with the valuation policies of the Company and the Master Fund as described further in Parts 1 and 11 of the Original Prospectus.
